

SmartMeet - FAQ

Do I need a Reservationless-Plus account to use SmartMeet?

No. You can use SmartMeet to join meetings without an account. However, to schedule, start and host meetings through SmartMeet you do need a Reservationless-Plus account.

Does SmartMeet Support Unified Meeting?

SmartMeet allows you to schedule, start and join the audio portion of a Unified Meeting conference. Application sharing, video and presentations are currently unavailable in SmartMeet, but will be added in a future release. For more information on Unified Meeting, visit www.meetingconnect.net/unifiedmeeting

Can I start and join meetings on my desktop?

Meetings scheduled with SmartMeet can be started or joined using Call Manager, our desktop application for Reservationless-Plus. For more information and to download, visit www.meetingconnect.net/callmanager.

Which tablets are supported by SmartMeet?

Currently, SmartMeet is not supported on any tablets. Support for iPads and Android tablets is coming soon.

Does SmartMeet support Windows Phone or Blackberry devices?

No. SmartMeet does not currently support Windows Phone or Blackberry devices.

What is the difference between Mobile Assistant and SmartMeet?

SmartMeet offers a richer meeting experience on your iPhone and Android phone.
